office furniture and lockers

WPAD rfid

Electronic lock with automatic opening and closing. It works with numerical code or RFID card. Wireless and battery powered.

It is suitable for furniture and lockers made of wood, HPL and bent metal.

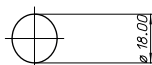

WPAD slim

WPAD mini

WPAD slim and WPAD mini

Wireless and battery-powered electronic locks, with front keypad. Both locks install easily and operate with a numerical code.

Suitable for furniture and lockers made of wood, HPL and bent metal.

For both locks, an 18mm diameter hole is required for installation in wood.

W-LKR

W-LKR

Invisible electronic lock, wireless and battery powered. Opening with RFID card. It is suitable for wooden furniture and lockers.

The version with **centralized access control** system, touch monitor, and **wired WLKR locks** is available.
